Jenna D. Barry : A Wife's Guide to In-laws: How to Gain Your Husband's Loyalty Without Killing His Parents
before purchasing it in order to gage whether or not it would be worth my time, and all praised A Wife's Guide to In-laws: How to Gain Your Husband's Loyalty Without Killing His Parents:

my new mother-in-law had reached it's climax. I hate confrontation and have always been raised to be respectful of my elders, however my in-laws were making my life horrible and I knew something would have to change. After finally asserting my feelings to my mother-in-law, I can tell you that I was banned from their home and told that my existence would not be acknowledged until I could learn to behave as a daughter to them. After weeks of crying myself to sleep at night, and my husband siding with his parents, I finally bought this book! This book is humorous and calming. The author describes different "types" of in-laws. Mine are not-so-great white sharks. It is not a boring read. I can say that the strategies suggested in the book are very helpful in assisting me to change my own behavior. As a result, I can already see tiny changes in my spouse's behavior. I am less critical of his parents in his presence and he is finally standing up for me to them. It's a hard road but I am starting to see a light at the end of the tunnel and our marriage is greatly improved from several weeks ago. (before the book) There are worksheets in the back of the book which I did not find helpful at all (which is why I don't give 5 stars). There is also two chapters specifically geared towards your spouse. 2 of 2 people found the following review helpful. Inheriting a mother-in-law? Invest in your sanity and read this book. By Mrs. Jones55 If you are getting married, ladies, you may want to read through this book. Just sayin'... Your age doesn't matter, if you are going to inherit a mother-in-law, make this small investment into you sanity. Being aware is half the battle, empowering yourself is the the other half. And...good luck. 3 of 3 people found the following review helpful. Okay for newlyweds By Knock Knock This book is easy to read and entertaining. It takes on a humorous approach in solving in-law problems. I would recommend it for recently engaged and newly married couples. This advice is basic and more on a beginner level. If you've been married for a long time or are experiencing serious in-law problems, I found "Toxic In-Laws" by Susan Forward to be much more helpful.

You can have a Great marriage, even if your in-laws aren't so great! When a man marries, he is supposed to transfer his loyalty from his parents to his wife. His behavior plays a key role in how well you get along with his parents. As a wife who has personally experienced the despair that comes from having an unsupportive partner, Jenna D. Barry suggests specific things to say and do to gain your husband's loyalty. A Wife's Guide to In-laws has over 40 cartoons, 2 chapters written just for your husband, and 20+ worksheets to help you reach loving compromises about common problem issues. If you need hope and encouragement, this book is for you!

You married your husband; you didn't plan on marrying his parents. But, like it or not, they're part of your family. In-law problems can plague many marriages because so many couples feel hopeless about making things better. Jenna Barry's witty and insightful book gives hope to women and men who struggle with overbearing, over-involved or downright malicious in-laws. She gives useful, humorous and down-to-earth advice that says: "I've managed to do it, you can do it, too!" A Wife's Guide to In-laws is the Red Bull® of relationship books: it will give you wings. --Dr. Scott Haltzman, Best-selling author of The Secrets of Happily Married Women and The Secrets of Happily Married Men "Jenna's work has been a beacon of hope for those who struggle with one of the most difficult relationships- the in-laws. Her unique insight gives readers practical, easy-to-follow tips and provides insight on how to deal with `the other half' of one's marriage. Her comprehensive work allows marriages to grow in a positive, yet straightforward manner, which for most can be the number one burden in sharing a life with another. Jenna's work is a must read for those who struggle with mitigating the third wheel and should be the go to source for everything in-laws." --Gabriel Lefrancois, Hitched Magazine -- Hitched Magazine Jenna D. Barry defines a very common conflict that devastates many marriages and provides step-by-step advice for winning the in-law battle in order to create a better marriage. She deftly mixes wisdom with touches of humor to lift the tone of what could be a stressful how-to for many couples. Although we like to have advice from experts in a given field (and this book contains such), we also like to learn from people who have "been there, done that." The strength of this book is its author's experience: she actually DID what she's talking about--she gained her husband's loyalty--and now shares her successful methods with others facing the same issues in their lives. She establishes credibility with readers as she describes feelings they have and her first-hand knowledge of what they are going through. Jenna offers a wide range of advice, varying in degrees of firmness, and encourages the reader to decide what will be most effective for her particular situation. Jenna D. Barry provides a comprehensive guide to dealing with difficult in-laws. This book is essential if you are one of the many wives who struggles with your in-laws.
