Daniel Theaker : A Working Musician's Joke Book before purchasing it in order to gauge whether or not it would be worth my time, and all praised A Working Musician's Joke Book:

5 of 5 people found the following review helpful. Not as Corny as You'd think! By Vivien Leanne Saunders Alright, so there are lots of the typical "How many soprano does it take to change a lightbulb?" type jokes in here, but they're elegantly spaced out with some brilliant, technical and obscure jokes that clearly come from trained musicians. There's enough corniness to make even the most easygoing muso groan, and at the same time there are some jokes that are hysterical, and very familiar to those who work in the industry... ;) The jokes are sorted by instruments and groups,

with extra sections at the end for those oddities who don't fit in anywhere else (conductors, accordians, techies...)A great collection!

Daniel Theaker's A Working Musician's Joke Book is a compilation of the funniest and most popular music jokes today. From groaners to gut busters, these jokes really reflect the attitudes and personalities of people who make music for a living.

About the Author Daniel Theaker is a composer, flutist, and writer of 10 scale books for woodwinds and brass. He plays in the regimental band of the Governor General's Foot Guards and lives in Ottawa, Ontario. Mike Freen has been doodling for as long as he can remember. He lives in Kanata, Ontario, with his family.
