**Jay M Horne : As The Waffle Burns** before purchasing it in order to gage whether or not it would be worth my time, and all praised As The Waffle Burns:

0 of 0 people found the following review helpful. It's all going down at the Waffle House...By R. WilliamsA quirky off-beat series of vignettes featuring a fry cook hero and a never ending supply of late night butter and hashbrowns. Waffle House is a clean well lighted place at the crossroads of humanity. It's a microcosm of the American experience, Riff-raff and regular folks share counter space and a desire for 'maple' syrup and fried eggs. And if an observer is

careful, the mysteries of life are all on display, warts and all. Perfect for a short flight or lunchtime reading. A little story goes a long way. 0 of 0 people found the following review helpful. Two Stars By OkieThought stories would be more interesting. 2 of 3 people found the following review helpful. Syrup-y story By AJI could not finish this story. The writing style was not for me. I enjoy a good late night Waffle House trip as much as the next person but try as I might I couldn't fall in to this story. Scattered, smothered, and covered.

As a research project, Jay begins a journey into the exciting world of the Waffle House line cook. He vows to stay happy and positive in the bleak atmosphere and records the experiences that bombard him as he perseveres through all the calamity. The humor is side splitting and the gossip is comparable to *As the world turns*; A soap opera. A must read! Delve into the story of the line cook, who got fired over writing this book, and laugh at the customer's expense and a section chock full of jokes!

From the Back Cover Sarcasm has the high seat when it comes to life's highlights. I use to say that God took a back seat to sarcasm ages ago, but how can that even be said without a little bit of sarcastic twang dripping from the end of the sentence?
