My first was a blast though a bit of a mess but a real learning experiment. Luckily there are lots!! if pages to color!!!I've decided that rather than picking a spot and a color and moving along, changing colors as I go, it is better to pick several colors I like that I think will go well together and start coloring.It's amazing the difference you get coloring on a black background opposed to a white one. Pastel colors seem to pop out on a page rather than the subtle effect I get when I use them on white paper.The first page was a mix of a LOT of different media! To make sure I didn't have any bleeding problems, I backed the page with a couple of blank sheets of paper. Good thing I did as the orange felt tip marker did bleed through to the back side! Good news, while it did bleed through, it did not show up on my blank sheet! 'Twas also a jolly goo thing these pages are SINGLE sided as the back

side would have been a disaster!!! (Yes, I could show you the back side but I won't! Too icky! )I will add pictures as I can.5 of 5 people found the following review helpful. Midnight Series Books =Amazing!!!By Polly SpildeWhat an awesome super fun adult coloring book this is:))) My newest coloring obsession, is the Midnight series coloring books from Penny Farthing!!! She creates quality books, that contain many beautiful fun images from which to choose. I have quite a collection of her books, would recommend them to anyone looking for great books at great prices!!! Thank You Penny!!0 of 0 people found the following review helpful. Not up to her usualBy SusanThis book just seemed a rehash of other pics and not a very good selection.

Come Over To The Dark Side... ..with this unique black background coloring book. We took 60 of our favorite animals from our popular Awesome Animals book and did a bit of black magic on them to turn them into fantastic white patterns with all black backgrounds. Think of the possibilities of coloring these with bright neon pencils or markers and remember, as with all of our books, each image is printed on its own page.
