Some others in the series are a bit funnier, but its still good.3 of 12 people found the following review helpful. Really for parents, not for kidsBy wcwIt's a good book, pretty funny, but not really engaging for kids. The whole "baby do my .." franchise seems to be a bit out of control, but having one of them is amusing.1 of 1 people found the following review helpful. The concept for the series is pretty adorable, and occasionally the design works wellBy MabilaThis is arguably the "Baby Be of Use" book that works the least. The concept for the series is pretty adorable, and occasionally the design works well, but this one is fairly pathetic. The illustrations are repetitive and boring. (Illustrations of a wallet, a driver's license, a will, a mortgage... There picture of people waiting in line as on the cover is as dynamic as it gets!) Worse, one of the two-page spreads is out of order in my copy, so even the single sentence in the book doesn't make sense.

Are you a parent? Have your finances become a chore? Perhaps you should hand over those onerous fiscal responsibilities to someone with a little more time on their hands: your child. Let them wait in line at the bank. What else have they got to do? Thanks, Baby!
