Written in the style of "Candle + Strawberries = Do Not Disturb Sign" (but in pictures) which isn't exactly something you can read out loud very easily. 1 of 1 people found the following review helpful. Fun book for new parents. By K Welt I gave this as a gift at a baby shower - the parents LOVED it! They are mini-sized books but are hilarious and gave everyone a laugh. They got passed around and everyone complimented it. I would definitely recommend buying the series. 2 of 4 people found the following review helpful. book. By P. Travis this set of books is a fun gift for expecting parents (or with a newborn)...puts a bit of humor into a sometimes difficult time!

If you're a new parent, you know how hard it is to get quality alone time with your partner. Instead of blaming the kid, put him to work! This handy manual will teach your baby how to set the mood for an intimate evening (and then make himself scarce — thanks, baby!) Baby Get Me Some Lovin' is essential for expectant parents, harried mothers, tired fathers, and overly involved grandparents.
