By Michaela  
The "Baby Be of Use" series is completely hilarious, and makes an AWESOME inappropriate baby shower gift (for anyone with inappropriate-humor-loving, baby-having friends). It's true, there are some people in this world who might not find it funny to imply that a baby should prepare your breakfast for you, or learn how to make Daddy a margarita (see \_Baby, Mix Me a Drink\_). You know who you are. If you snickered at all at this idea, you must purchase these books immediately. The books are the same size and construction as all the other little board books cluttering up your house, so your child can chew them to pieces long before he/she ever figures out what the words mean. The words and illustrations are simple and large, which of course makes the whole thing even funnier. Highly recommended.

By K. Funcheon  
Drawn up to mimic itself as a baby book but the humor is all adult. This whole series is super creative, adorable, and will be the hit of the shower! All my friends could not get enough of these books and all requested where I purchased them so they could do so as well! Make sure you give them to a mother with a sense of humor though!

By K. Welt  
These books are great! I gave a set of them to new parents and they loved them all. Everyone laughed as they passed it around and read it. Loved the pictures and the easy read - only wish the baby could actually do it.

Little ones learn to help out around the house with this humorous book from McSweeney's new Irregulars series. Many people are parents, and many parents get hungry. It's time to show those infants how to concoct a simple breakfast!

This instructional board book teaches precious little angels to be useful, at long last. It's a delicious way to start the day. Thanks, Baby!
