By Jeffrey Jotz I purchased this book as a gift for friends and relatives who constantly bombard me with e-mails about stories they "swear really happened" (I may have to buy several hundred). This book isn't heavy reading, but contains many twists and versions of urban legends we've all read on the web or in our e-mail inboxes. I only wish it took the time to trace the origins of these urban legends and describe variations of them as I've seen on a few web sites.

Awesome book

Baby on the Car Roof brings together 222 totally new, funny, quirky, frightening, bizarre and always entertaining urban legends. Urban legends or myths are dramatic and often humorous stories that circulate under the guise of truth and usually as having happened to "a friend of a friend" even though often they are entirely made-up. Organized by genre, each tale runs one- to two-pages long. Story variations are included in each listing. The subjects range from famous people, sex, office foibles and travel nightmares to college pranks, biological abnormalities and ghost stories.
