Lighthearted fun for the young parent By Eugene This book is exactly what's described in the description here: A comical take on the traditional baby's memories book. For someone who was a little overwhelmed at the amount of stuff out there that's targeted towards new parents (read: designed to guilt new parents into buying their schlock so you don't feel like you're neglecting your child), this book was a breath of fresh air. Realistically, neither I nor my wife would have ever completely made use of a straightforward baby memories book, and in fact, I have yet to meet anyone who actually did. This book, on the other hand, is entertaining by itself so you don't feel that its purchase was a complete waste even if you never fill in any of its pages. Some gems from the pages include: "Diameter of baby's head" followed thereafter by "Diameter of hole baby's head came

through." There are places to record baby's first projectile vomit, and even baby's first DWI. There's even a ledger of expenses you can fill out which start out with hospital expenses and even include cost of spring break, cost of first auto repair, and cost of "finding oneself". This is funny, funny stuff. It's not intended to be a serious memory book for any child, but it provided me, a parent, with plenty of giggles. 0 of 0 people found the following review helpful. Our tattooed son and daughter in law enjoyed the humor of this book as they prepared for ...By Melanie PfaffOur tattooed son and daughter in law enjoyed the humor of this book as they prepared for their new little guy. 1 of 1 people found the following review helpful. HILARIOUSBy WifeMotherProPetSitterUSAIts so funny. Whats the saints name who administered your epidural. Checklist of stuff we have to bring everywhere we go. Babys first \$100 pair of shoes. What bar did the parents meet at? Whats babys first web page?

The alternative scrapbook that documents a baby's truly important memories. Millions of people think children are the cutest, cuddliest, most wonderful, saintly creatures in the entire world. These people do not have children. They have nice things. They collect fragile pottery. They have candlelit dinners in fancy restaurants. They go to the movies. They have white carpets. People with small children haven't been to a restaurant without plastic silverware in years. The last movie they saw in a theater is now on American Movie Classics. Their house looks like it was decorated by Pee-Wee Herman. Baby's First Tattoo is for them. For years parents have been buying baby books to document all the precious moments in their new baby's life—Baby's First Tooth, Baby's First Haircut, Baby's First Step. What have been ignored for too long are those “alternative” precious moments that really should be written down, celebrated, and remembered—Baby's First Projectile Vomit, Baby's First Tantrum in a Crowded Grocery Store, Baby's 10,000th Dirty Diaper. Otherwise you might forget them and think of becoming parents once again.

About the Author Jim Mullen has seven brothers and sisters and sixteen nieces and nephews. When not in therapy, he writes the "Hot Sheet" column for Entertainment Weekly and is the author of *It Takes a Village Idiot*, a memoir of moving from Manhattan to a small town in the Catskills.
