FunnyBy Anna LythgoeI found it to be Some what entertaining, but not really useful as I hoped, granted I didn't read the book description or anything just the title.3 of 4 people found the following review helpful. Not What I ExpectedBy TexI downloaded the Kindle version of "Baby Tips for Dads," thinking it was a tip guide for new dads. Turns out this is one of those cute hardcover books that people give as gifts at baby showers. It's full of little comics and very little content. Not a tip guide for father's if that is what you are looking to get.0 of 2 people found the following review helpful. Baby babBy henry mauldinI love it is a good book . How is the best cariters . A funny guide to help new dads laugh through the sleepless nights  
Contraction: One of the first signs of a baby's arrival. The most notable are contractions of space, social life and spare cash. Once the nine-month wait is over and a son or daughter has arrived, what happens next? Help is at hand in this nifty book that provides quick and quirky advice on everything from crying to nighttime nibbles. For either a new dad or a seasoned father of a lively horde, this nifty little gift book is guaranteed to keep you smiling through the tears, tantrums, and mountains of smelly diapers.
