Fun addition to a baby announcementBy EveThis is a cute little book with funny little cartoons and scripts. My family has enjoyed it and it was a fun way to let my parents know they are expecting a new grandbaby.

Quirky and humorous advice on dealing with another generation of your family The nine months is up and the long-awaited baby is finally here. But what happens when a darling child calls for babysitting services? Grandparents have been through it all before and then some, but with the help of this quirky little book they'll be sailing through those unexpected play dates with both nerves and furniture intact. It is a reminder that a grandchild can be enjoyed with the knowledge that the puking, pooping little tyke can be handed back to his or her exhausted parents at the end of the day.

Now it's their turn to experience all those sleepless nights and panic attacks that the miracle of a new baby brings.
