Great 'bathroom' reading and the perfect small gift for a cat loving friend.0 of 0 people found the following review helpful. I love this but I'm going to say at the beginning ...By TranceGirlI love this but I'm going to say at the beginning there are some bad words in it! If you are buying it for a young child, do a quick check through it before giving it to them! But other than that the pictures are hilarious and we loved looking at the pictures. Shipping

and everything was easy and fast too! 1 of 1 people found the following review helpful. Funny enough to make even cat-haters smile. By Mary A. Turzillo I just loved this. Cats are funny because we see ourselves in them. This book depicts cats in very human poses, with very human expressions. We know the cats don't really think or say the things stated in the captions, but we recognize our own failings and those of our friends and enemies in them. I read this book before I go to sleep because it amuses me and the humor never gets old. In fact, I wore out a previous copy of the book reading it repeatedly.

Not since Kliban has there been a cat book this edgy. Edgy as in Bosco, the demonic Siamese with the out-of-focus eyes, razor-sharp fangs, and his own idea of Feng Shui. Or the half-shaved freak named Mr. Fliegel, who looks like a cross between a poodle and a lion. Mr. Fliegel shrugs and says, "Chicks dig me." Or Kato, resplendent in his Three Musketeers outfit: "One for all, blah blah blah . . . now just get me out of this @#%ing costume!" Or Clark, whose hobby is eating other cats' food. Tina, who somehow always just misses the litter box . . . sucker. And the guilty-looking Clarence, caught with a Barbie doll in flagrante delicto. Clarence's defiant defense: "She was naked when I came in. . . ." Just as Kliban got us to think about the cat as something far more interesting than an innocuous house pet, and Suzy Becker taught us that cats possess a Buddha-like wisdom (together *Cat* and *All I Need to Know I Learned from My Cat* have more than 2.6 million copies in print), Jim Edgar reveals yet another facet of the ever-mesmerizing animal. Brooding, deranged, antisocial, these are kitties with attitude and borderline personality problems--ah, but what hilarious fun it is to read about them. All 244 photographed in terrifying full color in their most unflattering moments, with a quote plus vital stats: name, breed, age, and hobby. Get to know them. Then see if you can ever forget them.
