Keep in medicine cabinet.By Pamela GoodfleischStore this one in your medicine cabinet for those times when you need a quick chuckle.My only complaint would be that it's just too short for the amount of money charged. But then again, what price do we put on a happy giggle? Ummmmm. Nope, still too high. LOL! I'm so torn.Without spoiling anything for those of you who purchase this short but very cute book,

my fav was the flea collar. Still makes me smile and I'm currently sitting in a hospital waiting area where the funniest thing around was the look on one of the hospital staff's face when he came out with his mop and bucket to clean up after a lady with tummy problems. 0 of 0 people found the following review helpful. Five Stars By Customer very funny. 0 of 0 people found the following review helpful. NOT FUNNY-BAD AUTHOR By Steph, Illinois This book was okay, just not as funny as the "Bad Cat" book. There were some mildly humorous captions and pictures, oh, and hobbies. My neighbor wants to read it so I'll lend it to him. Don't normally loan out books as it always seems you never get them back. Maybe not getting this one back wouldn't be such a bad thing. Buying this book was a waste of money, reading it was a waste of time. Guess it's a "live and learn" experience.

Bad habits, bad attitudes, bad breath. With a weakness for bad outfits and having bad hair days. Dogs are no less bad than cats, so it was only a matter of time before, emboldened by the runaway success of *Bad Cat*, the #1 New York Times bestseller with 487,000 copies in print, dogs would be begging for the chance to speak out. Dogs like: Trixie, the puppy eating her own foot, who says: "If you're wondering, it tastes like chicken." Or the aging Sam, eyes popping out of his head and granny glasses askew: "Sweet mother of mercy—the Viagra's working!" Or Tasia, a big mutt forced to wear little Santa hats, who snarls: "I'd like to roast your chestnuts on an open fire." There's Dallas the surly yoga instructor. The old leech Samson, half-mastiff and half-slobber. Barley of the Order of the Vested Shih Tzus. Devil-worshipping Penny. Friend of sailors Miz Skeeter Bug. And Charlie, whose words should be heeded by every owner who thinks it's cute to dress up the family pet: "Listen to me! I am not a bird. I am not a plane. I'm just your dog, Charlie." In the same format as *Bad Cat*, with 244 truly funny photographs (including a number of group portraits), plus name, age, hobby, and candid quote.

From the Back Cover Shocking! Man's best friend? Think again. Behind those loving eyes and wagging tail lurks a very different dog. A dog with an edge. A dog with a dark side. A bad dog. Here, in all their glory, are hundreds of bad dogs, with bad tempers and bad breath. Smart-asses, stoners, thugs, cranks, lechers, hellions—makes you wonder what your pet's really burying in the backyard.
