From Brand: Workman Publishing Company : Bad President before purchasing it in order to gage whether or not it would be worth my time, and all praised Bad President:

0 of 0 people found the following review helpful. How the hell did we elect such a sad president? Twice! Here's how! By SPOBI hate saying that our president is a video it. But this book shows that our president is an idiot! I want had a book about the Kennedys administration where it took pictures and put funny captions to it. Well, this does the same thing! But after every two or three pictures there is something they call the sad truth, where it explains what

really happened or what was really said or how we were this misled by our president and his staff of henchmen. Sadly, these henchmen misled President Bush and he didn't even know it. That is the sad truth. 1 of 1 people found the following review helpful. VERY SMART AND FUNNY By C. Herman A joy to read, past it around to 8 people at a long party, everyone enjoyed it. It does help to be Jewish 4 of 10 people found the following review helpful. Bad Book By Lady Bug The books Bad Cat and Bad Baby are both hilarious; a friend assures me Bad Dog is equally funny. This book pretends to be part of the same series of books, but it's really not. Only about 3 picture/caption pairings in the entire book are even a little bit funny, the rest is political propaganda against George W Bush. I bow to no one in my disdain for that man, but this isn't even good propaganda and it's not even fair; it's the type of brainless pablum that gives liberals a bad name. The format is similar to the other "bad" books, a candid picture paired with a caption, but in this case the captions aren't funny, they're a way of putting words in someone's mouth to score a political point. Every 3 or 4 pages, there is a "the sad truth" page to reinforce the point just in case you are so entirely brainless you didn't already get it, with 'facts' that in most cases aren't facts, just more opinions, or statistics taken out of context. What REALLY annoyed me is that its not like you couldn't build a good case against Mr. Bush if that was your objective OR write funny captions if being funny was your objective, or even write funny stuff that builds a case against Bush. After all, Jon Stewart does that very well and he's very funny as well. But this? Not even remotely funny.

Filled with hilarious, undoctored photographs, cutting captions, "Bad President Early Warning Signs," and "Sad Truths" about the Bush administration, "Bad President" captures the US commander-in-chief doing what he unintentionally does best - the word "clueless" comes to mind - and delivers a book's worth of long-overdue laughs. Releasing in early October, this is the perfect impulse gift for anyone counting down to the end of this administration, or just needing more ammunition to make fun of Americans!

About the Author Harry Prichett is a former member of Chicago City Limits and the creator of the off-off-Broadway one-man show, Work=Pain=Success.
