Alan Mitchell : Bar Scams Exposed!: How to Spot Thieving Bartenders Other Tricks of Their Trade before purchasing it in order to gage whether or not it would be worth my time, and all praised Bar Scams Exposed!: How to Spot Thieving Bartenders Other Tricks of Their Trade:

0 of 0 people found the following review helpful. What an eye-opener !By Mark SchwartzI love books about scams and when I saw the title of this book, I had to read it. I had no idea the bar and restaurant business was so cutthroat.

And that's not even competing with neighboring bars, but competing with your own bartenders. After reading this, I would never want to own a bar. Living in Nashville and going to Lower Broadway often, and drinking in bars, I guess I should pay better attention to the bartenders. I never did. Or maybe the owners and G.M.'s of these places should read the book and pay better attention. Bartenders "giving away the house" (I must admit that I do get free drinks sometimes, but never think much about it – but this does shed a new light on it), to bringing in their own liquor and selling it, to putting cash from sales into tips – or cleavage – or pants – or pocketbooks, to filthiness. Very interesting reading. The assessments after each story shed some light, as well. It seems like common sense and ethics are a bit short in the bartending industry. There's No Such Thing As A Trustworthy Employee BartenderBy RapsCALLIONo matter how honest they start out, even if you trained them from the beginning, eventually, all bartenders steal. That's been my misfortune. Apparently, greed turns into action. Unless they have a stake in the place, they steal. There may be rare exceptions, rare in the sense of I've never met one. I haven't bought this book, but I need to. It's a tough thing when you have a trusted employee, someone you've always treated well, break that trust, but that's what happened tonight. I caught the person who I believed was totally trustworthy (four years running), red handed. She hasn't been fired, yet, but there's no way to mend this. She's a thief and all I can think of is how long she's done this to us. It's truly depressing, Happy New Year!!!0 of 0 people found the following review helpful. Great read. Equal parts interesting and humorous.By M BaconIt's neat to go through the looking glass into the world of crooked bartenders and lazy shop owners. The book can be a great tool for a bar owner. It also is written for the casual reader through the eyes of a veteran spotter who has seen it all. The author's sense of humor is apparent, as is his clear love of his job. It is broken down into individual stories so it can be a good book to pick up and put down. It's fun read!

Ever see a bartender take cash from a sale and put it directly into the tips, instead of putting it in the cash register? This book is a first for depicting the 'seedy side' of the bartending business. The book shows, from actual bar spotter reports, the scams that some bartenders use to circumvent the system (register). You will be amazed at what goes on (if you don't already know)! For any bar patron, this book adds to the enjoyment of sitting at a bar and spotting the activities of the bartender with knowledge.
