It's great to have in concrete form for if you don't have an internet connection to the site, and you avoid the random generator which may let you miss a few, or see the same one several times. It's great how I can just read them all in order.0 of 1 people found the following review helpful. Great for Obama lovers!By KeyJeyBought this for my husband who LOVES Obama. likeBy Melba VickeryIf you like info and fun in a portable book, this one is IT: You won't be stuck with boring polysyllabic words you'd have to look up. "BARACK OBAMA is YOUR NEW BICYCLE" fits into a small pouch. You can open the book at any page and get the drift of any single sentence without missing what went before! Use your little highlighter that doesn't bleed through the page. And be careful about lending it out for laughs because you might not get it back. I keep returning to .com for bargains like this. Buy it.
