Refreshing Humor Defuses exposes sea of dangerous Fable and MythBy PatrickEdwin Frederrick of Greenville,I just finished your book.You make me laugh. I applaud your

style. Your Humor defuses and dilutes. Your Humor allows views from perspectives outside ones own. Rationale thought is so refreshing after being inundated in a sea of humanity permeated with fantasy and myth. You are one of the five percent out of six point six billion and counting. You are not arrogant or intolerant. You just state the FACTS in a clear logical way. I just wish all humans could read and understand your book NOW without dogmatic filters. Perhaps, the world would suddenly be a better place. The poetry provokes thought and delights ones inner child. Your facts are right on. Your research was obviously well done. I am just sick of being tolerant and respecting views that are considered mainstream. Religion is one of the worst, most dangerous inventions of mankind. Those mainstream views and their dogmatic followers are injuring me and mine as well as the whole of our little speck of dust called earth. The entire ocean planet, the entire biosphere is near a major equilibrium disruption. We are the lucky generation of MAN to witness the `fruits' of the industrial age. Our fragile world economy is based on stability. Stability is about to evaporate in a `quantum flip'. The beautiful positive utopian `Star Trek' dreams of a brilliant hopeful future just simply do not appear to be a possible extrapolation of the path our world is on. Gee...I hope an awakening can happen and it is not too late for rationale solutions. Perhaps your book will help. I will try to get 10 of my friends to read it. Thank you Patrick

By R. Cassidy
If you are a true believer, this book will be utter sacrilege. If you have an open mind, this book will make you think and laugh and think again. Edwin F. Kagin's humor and insight on subjects as diverse as the Blessed Virgin Mary and separation of church and state may cause you to revise your own viewpoint and look at the world a little differently. I can't wait to share Hades with Edwin Kagin.

Unfailing humor, zany logic ... irreverent humor and a doggerel you can dance to ... fiery combination of a backwoods manner, feral urbanity, and an absolutely ruthless search for truth ... will win Edwin Kagin a first-class ticket to hell...Clamors for a place on the bookshelf of any thoughtful person, believer or infidel. Poetry and essays, satirical and serious, humorous and profane.
