Sharilyn Johnson, Remy Maisel : Bears Balls: The Colbert Report A-Z (Revised Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Bears Balls: The Colbert Report A-Z (Revised Edition):

The essential guide for any long-time fan!By NickThis book is extremely well-researched and full of classic moments from The Report, as well as some forgotten gems from years ago. It makes for very fun, light reading and should be added to any Colbert book collection. I am usually weary of buying "unofficial guides" but the amount of time and love the authors put into compiling this book is evident by how

complete each entry is. While it came out with a few episodes remaining, that really does not detract from the fact that this is the most complete book available to fans. It's a great buy!6 of 6 people found the following review helpful. Buy this Book!By RJThis is an AWESOME source for an die-hard Colbert Fan! I will miss the show but at least I will have Bears and Balls to console me! It's a great trip down memory lane! Congrst to the authors' on a fine piece of work!!4 of 4 people found the following review helpful. I am so glad this book came outBy Gina RaeAs a fan, I am so glad this book came out! We needed an encyclopedia of the show, and you won't find one as comprehensive. Would love some color photos inside. In general, a thoughtful and complete compilation of all the elements of "The Colbert Report." The November release date did not impact the book's relevancy, as the show has not debuted any new segments or characters in its final weeks.

Revised for 2015! Bears Balls is the essential fan guide for truly dedicated members of the Colbert Nation, celebrating 9 years of The Colbert Report. This encyclopedic journey through the show's best-known segments and obscure favorites is crammed with details only the show's most knowledgeable fans can deliver. What was The Word modeled after? Was Jay the Intern really an intern? What ever happened to Stephen Jr.? From the technical to the tangential, Bears Balls: the Colbert Report A-Z covers it all, and answers questions you didn't even know you had.

From the AuthorBears Balls was written with one goal: to heighten your enjoyment of The Colbert Report. We've combined the show's best moments and behind-the-scenes insights into more than 200 encyclopedic entries. On every page, we want you to say, "whoa, I totally forgot about that!" or, "whoa, I didn't know that!" (Though if you're reading this on public transit, we prefer you just think those things.)
