I plan on buying more of these for gifts. I think I might have a hard time stopping myself from coloring pages to give to people that p*ss me off. There are quite a few pages considering the lower price of thus coloring book. Definitely buying more if these.8 of 8 people found the following review helpful. Just ok.By SprinklemonkeyThis book is ok. The pictures are nice enough but the paper is thin and the ink seeps through. The pages tore out roughly as well. It isn't horrible but it isn't great either!6 of 6 people found the following review helpful. Swearing and coloring all in one!By AmandaColoring has become one of my favorite ways to decompress and swearing has always been one of my favorite ways to decompress, so naturally this is perfect for me. The pages are just the right size. The phrases are brilliant. I am extremely happy with this purchase and will be making this coloring book a go to for gifts.
