Sylvie Nicolle : Beautiful Woman: Flowers and Butterflies in Hair (Adult Coloring Book) before purchasing it in order to gage whether or not it would be worth my time, and all praised Beautiful Woman: Flowers and Butterflies in Hair (Adult Coloring Book):

3 of 3 people found the following review helpful. Think twice and wait for someone to do a video on the drawings inside. THEN decide if it is worth the effort.By creativeI guess I am in the minority here. I think this is not a good book artistically. It, to me, is a mish mash of put together projects that is thrown out there in the coloring book hot craze. Would I buy it again, no. Would I recommend it? Not really. But some work is for sure in the eye of the beholder. I will say of the whole book that there are a couple of drawings that are good enough that they don't look like they were intended for this publication. This is where the back cover should show what is inside.0 of 0 people found

the following review helpful. lily and maxx's grandma!!By sunvalley1964This is a great book! Used my gel pens, first time old lady tried to color again after 70 years of books and games. Coloring again is wonderful, books and pens make excellent gifts and is the only place to make your purchases!! Not being paid for this comment!! By the way, senior comments, "its hard to stay in the lines--these old hands shake." Who cares, just have fun!!0 of 0 people found the following review helpful.
