Move on from this oneBy Kristi HansonAs I am an avid colorer, I was looking for a book with simple, fast designs to even out the many involved books I have. I surely got that, lol! The worst part of this book? Each design is in this book twice - BACK TO BACK on single sided pages. WHY? This one is a clunker.1 of 1 people found the following review helpful. Eeeh, I wouldn't.By CustomerThe pages themselves look EXACTLY like the one on the front of the book. It's not very exciting or "appetizing" for me to color at all. I bored myself on the 1st page I done. I don't recommend it unless you want double pages of the same thing to color differently. And then it's just the little circles/fan shapes.1 of 1 people found the following review helpful. Five
