They love to memorize them and try to repeat them. They even love to try and make up their own jokes. After many, many times of hearing the same joke over and over again and hearing their not really funny made up jokes (sorry kids), we invested in this book.When it

first arrived, the kids were psyched. They listened for hours to all the new jokes in this book. They love it. The jokes are appropriate and kid friendly in the sense that some need explanations but most of them they understood. We have had it for 2 weeks now and they are still into it. They repeatedly ask for it as a bedtime read aloud. We all laugh together and have a great time trying to remember and repeat the jokes to others. This new material has us all cracking up and having a great time!

By KPlatzAs a parent, I'm pleased that this book's humor is very appropriate for kids. Whenever I get my 7-year-old books from the internet, I always check for hidden innuendos in them because you really never know what goes on in the minds of publishers nowadays. I'm happy to report that this book had none. Just pure entertainment for my little one, and was funny enough to keep my son engaged for a good solid hour. He loved this, and I did too!
