Amanda Credaro : Biblia's Guide to Warrior Librarianship: Humor for Librarians Who Refuse to Be Classified before purchasing it in order to gauge whether or not it would be worth my time, and all praised Biblia's Guide to Warrior Librarianship: Humor for Librarians Who Refuse to Be Classified:

5 of 5 people found the following review helpful. What a lot of fun! By A Customer This book won't suit everyone - you need a sense of humor, and at least a little knowledge about libraries to fully appreciate the dry wit. Love the great cartoons, too! 5 of 5 people found the following review helpful. What a great book! By Alan Everyone who has ever used a library should get this book - not just librarians. Even the back cover is funny. People will say "he's just a kid" (I'm 16) and "what would he know"? But I'm telling you - I KNOW what's funny, and this book IS too, too hilarious. I never know that forwards and introductions could be like the ones in this book. My librarian never told me that even

title pages could be used for more than just breaking up sections. If you're looking for something really boring, you should NOT buy this book.

Examining the lighter side of librarianship, this book presents a combination of outrageously funny cartoons, commentary, and wit. Globally known as Biblia, the Warrior Librarian, Amanda Credaro has teamed with cartoonist Peter Lewis and produced a book that expands on her award winning web site, Warrior Librarian Weekly, the product of many years of experience in librarianship. Equally applicable to all types of libraries, the work offers humorous advice, typical situations and dilemmas, and helpful examples that will be appreciated by anyone who has ever worked in a library. An additional section features a glossary of library terms, abbreviations, professional associations, and other resources.

"Biblia's Guide to Warrior Librarianship is unlike any book that I have come across. With sharp, witty colloquialisms and hilarious illustrations that perfectly match the content, the anecdotes clearly reflect our profession's nuances, issues, and low and high points. ...This book was a joy to read. ...This is the type of book that needs to be passed around the reference desk, with each librarian marking their favorite section for others to read. Pages should be photocopied and placed in the break room to give fellow staff members a chuckle. I keep my copy behind our circulation desk, and whenever I am in the need for a good laugh, I open the book to a random section, spend a few minutes with it, and return to my desk with a smile."-Public Libraries
"No librarian should be without Biblia's Guide to Warrior Librarianship, a funny and original book of library humor. Exceptional."-The Shy Librarian
"[C]redaro provides just what the doctor ordered....Biblia's Guide to Warrior Librarianship is recommended for librarians who need a smile, a chuckle, or even a belly laugh. For those librarians who are humor-impaired (and you know who you are), please exercise caution if you open this book--it might induce a humorous reaction."-Library Journal
