Tyler Oakley : Binge before purchasing it in order to gage whether or not it would be worth my time, and all praised Binge:

63 of 66 people found the following review helpful. the one we've all come to know and love through his videos and his podcastsBy Angela C.As a casual fan of Tyler, I bought this book to support him and to get the inside scope on all the juicy secrets he didn't reveal in his videos. Despite that, I wasn't expecting a lot.What a refreshing surprise. What I expected to be a book that would slightly elaborate on stories from his videos ended up becoming an engaging,

humorous, and emotional rollercoaster. He delves into subjects many people would never touch with a ten foot pole, and he is relentless in his execution. His voice, the one we've all come to know and love through his videos and his podcasts, is embedded within these words in a way that is so natural and strong that you're sucked into the world of "Tyler Oakley" with each sentence you read. Binge gives us the embarrassing relationship stuff, the hilarious of-course-he-would stories, the heartbreaking times, and the simple but resounding life lessons. Thanks to this, I've set aside my skepticism because as Tyler continuously emphasizes in Binge, in the end, his goal isn't anything else but to be himself. And while this book won't be required reading for AP English Literature anytime soon, it is the epitome of Tyler's presence, and that in itself makes for a fantastic story. 3 of 3 people found the following review helpful. Funny, Sweet, Honest and Brave, LOVED IT!! By lisakttn Seriously, one of the most enjoyable books I have ever listened to and trust me there have been many. I actually stumbled across Tyler, being that I am not really in his demographic because I am much closer to Queen Jackie's age, by accident. See, I am a fan of Pentatonix and I started watching Mitch and Scott on their You Tube show Super Fruit and this adorable, happy, smiley, young man named Tyler Oakley was one of their guests. I was a fan immediately and this sweet face has made me giggle, snort, laugh and even tear up on numerous occasions since. When I saw that he was not only writing a book but I could get his book on audio I was super excited!! Better yet Tyler Oakley, himself, was going to read his story to me? SIGN ME UP!! I was hooked from the moment he started speaking. His voice makes my heart smile and his book is full of wonderful stories about his life and his "brand." Tyler spoke eloquently and honestly about his life. He bravely opened up about so many things that have happened to him and how he made it through all sorts of situations, good, bad, funny, embarrassing, scary and crazy. I applaud Tyler for being so honest and I loved every minute of the book. I was truly sad that it had to end. Should you buy this book... well that is met with a resounding HECK YEAH... whether you choose to listen to his voice or hold his writing in your hands, trust me you will not be disappointed. It is funny and enlightening. By Kindle Customer Funny that I am finishing this book so close to Tyler's birthday. I really enjoyed seeing a new side to Tyler Oakley. I watch his YouTube videos and I really like him as a person. Being able to see more of a background version of his videos and life was interesting. It was like reading the deleted scenes. He seems like a humble guy who wants nothing more than to be successful and have the things he wasn't able to growing up. He has worked hard and it's paying off. I can relate a lot to what is in the book being the same age as Tyler. It is a funny, thoughtful read. You don't have to like him or watch his videos first to pick up and enjoy the book he wrote. Smart move Mr. Oakley. I applaud you!

For someone who made a career out of over-sharing on the internet, Tyler Oakley has a shocking number of personal mishaps and shenanigans to reveal in his first book: he experienced a legitimate rage blackout in a Cheesecake Factory; he had a fashion stand-off with the White House secret service; he crashed a car in front of his entire high school in his fast food restaurant server's uniform; he projectile vomited while bartering with a grandmother. With millions of fans clamouring for more Tyler Oakley, he delivers his best untold, hilariously side-splitting moments with trademark flair in Binge. Now in paperback!
