This coloring book is so relaxing, I made copies of each page so I could color the same mandala as many times as I want. Hope they made more coloring books...I have just begun using his home energy systems to balance the subtle energies in my home and water and electrical hook ups.1 of 1 people found the following review helpful. The BioGeometry Signatures Mandalas Coloring Book includes a collection of 20 mandalas which combine the

beneficial meditative effects of Mandala coloring and the subtle energy balancing harmonization achieved using BioGeometry Signatures designs. Mandalas, by virtue of their design, focus our minds towards the center of circle, a special point that goes beyond time and space. BioGeometry Signatures are linear diagrams that represent specific energetic patterns found within the body's organs (similar in concept to how the Chinese energy meridians take the shape of and represent the energy flow of the human body). By introducing the BioGeometry Signatures into the Mandala designs each Mandala allows us to communicate with our internal energy structure while pulling us into a meditative stress releasing state through a detailed coloring experience.
