I laughed out loud multiple times, eliciting concerned looks from the rest of the family who are unaccustomed to Mom breaking out in peals of laughter at random and unprovoked intervals. 'This book,' is how I answered their looks.The book is compilation of short stories about life

in general, and life as a husband and parent in particular. The every day moments that we all live through, and perhaps take for granted, are gone over with a hilariously humorous fine toothed comb, to come out smooth, wrinkle free, and uber entertaining. Part of the hilarity is the parts of myself that I recognized in each of the stories. He gets me. And I would be willing to bet that he gets you too! Read this book!

By RStaymates Jason Spafford has written a hilarious look at parenting and life in a middle class household in his *Birthday Ideas Other Humorous Stories*. A professional 'Stad', or stay at home dad, he writes about the ups and downs and ins and outs of raising children and being married in such a funny way, that I laughed out loud. In one chapter, he writes about accidentally throwing away one of his children's teeth, before the tooth fairy had come! The hilarity that ensues as he attempts to replace the tooth is worthy of the Three Stooges, or Laurel and Hardy. And that is why I loved it. It was clean, bright, homespun humor that kept me excited for the next chapter, and the next, and the next.

By im1rarebird In this collection of short stories, Jason A. Spafford, has found a way to look at the humorous side of parenting. Anyone who has kids will find themselves nodding their heads in agreement with some of the situations as well as laughing out loud at the antics of these characters. One of the best is "God are you there, it's me Jason?", it is a conversation that many parents can totally relate to or are secretly hoping they will never need to have. Jason Spafford is a great writer and he knows how to present a situation in its most comedic light. This is a must read and great fun.

Birthday Ideas and Other Humorous Stories is a collection of funny short stories that are mostly based on real life experiences ranging from parenting to trying to understand the opposite sex to working the strangest jobs and meeting the oddest characters. The book includes 40 short essays and is perfect for quick reads in between. All the stories are funny, whether talking about birthday ideas, driving for 24 hours, accidentally forgetting a spouses birthday, black ice, hating onions, carving a tooth out of soap, plunger etiquette, or the differences between boxers and briefs. One story, "LinkedIn With Toothless Kenny" tells the story of working one day at a state fair with a guy named Kenny (missing quite a few teeth) and the bond that did not develop. Another favorite, "God Are You There? It's Me, Jason", tells the story of a dad dealing with the onslaught of questions from his ten year old daughter and her friend, who just had the puberty talk at school. And "Cartoons and the Wedding Proposal" tells the mammoth lie that is fabricated in the name of romanticism to pop the big question, and how the Flintstones end up playing into the occasion.
