Just what the doctor ordered!By CustomerLast night I received my copy of "Biscuit for Your Thoughts?" and after a long and frustrating day sat down to glance at it. I ended up reading it cover to cover in one sitting and it was just what the doctor ordered. The dog version of uplifting quotations (dogtations?), were perfectly paired with fabulous photos to fit the sentiment. There's nothing like looking into the depths of the soulful eyes of a pug to melt the heart. The photos aren't just cute pictures of dogs, but really capture their individual personalities while telling the story of the selected quotation. The high quality printing and hardcover binding both look and feel good, adding an extra element to what's on the page. This would be a perfect gift for the dog lover on your list or for someone who just needs a lift.1 of 1 people found the following review helpful. Scene StealersBy S. KorbaThis book is an ideal gift for any occasion, especially for dog and animal lovers. The photographs are exquisite and perfectly matched with their captions. The charm is that the dogs have no idea of how beautiful and sometimes amusing we find them. As every entertainer knows, they are scene stealers.I got this book as a possible gift, but I'm keeping it for myself. Of course, I'll order more for my friends. I highly recommend this little gem.My dog Max liked it also.1 of 1 people found the following review helpful. Bow-Wow, great little dog book that leaves you smiling.By BuzzOne of the cutest dog books, the quotes are adorable and the coordinating pictures are the icing on the cake! Don't hesitate to buy and enjoy or use for dog gift basket gifts with some doggie biscuits!!!

DOG PHOTOS PAIRED WITH PEARLS OF HUMAN WISDOM THAT HAVE BEEN REINTERPRETED
THROUGH CANINE EYESDogs have mastered the art of living the good life. Every day is a glorious adventure.
Every blade of grass is new and every squeak from their toy is as sweet-sounding as the last. In Biscuit for Your
Thoughts, these practitioners of canine zen impart their wisdom, cultivated over thousands of years, to help us mere
humans better deal with the rigors of our bipedal lives.
