guess it's true- the barista is judging me. I've always suspected, but this is proof. I've been a fan of the website for a while- but having the book is great. It's hilarious to leave out on the coffee table for friends and family to pick up and browse. The book itself is well designed and fun to look at with vivid pictures and strong text. It will definitely help you win your next dinner party when you show it to others and make everyone laugh. 0 of 0 people found the following review helpful. Not that great By Customer This book is very funny however I wouldn't say it's worth its asking price. It's 59 short sentences that you could read online. The only benefit of buying a hard copy is to have it as a conversation piece. 1 of 1 people found the following review helpful. Hilarious quick read By RZ This is a great book to throw onto any surface where someone might be waiting. Microwave, coffee table, backseat of your car, front door, living room, toilet, anywhere! A collection of tweets that will sure to make you laugh hard and want to share with someone instantly.

Then this book is for you! The Bitter Barista coffee table book is a collection of the best, snarky one-liners from [www.bitterbarista.com](http://www.bitterbarista.com) paired with original photography that highlights Seattle's one-of-a-kind coffee culture.
