Caty Zocco : Bloom: The Flower Garden Coloring Book before purchasing it in order to gage whether or not it would be worth my time, and all praised Bloom: The Flower Garden Coloring Book:

I used thin markers and colored pencils. I placed a sheet of paper behind my page because the markers would have bled through. The hardest part was picking what page to do first...they are all so great! 2 of 2 people found the following review helpful. Great combination of beautiful designs! By Dongjing Zhang The designs are really nice. There's a good variety of abstract and floral designs. I really like how the pages were not double sided. If I wanted, I could just rip the pages out to work on them on their own without the binding/ My only complaint is the quality of paper and the black ink. The paper is just a bit too thin and the black ink was a little too light, but otherwise, my colored pencils were still blending great on them. Pearce Creating beautiful color

combinations on paper using Caty's flower garden drawings as a guide is relaxing and invigorating all at the same time! It's been a long time since I sat down and colored, but it's certainly going to be a regular activity on my schedule from now on. I hope that Ms. Zocco will be publishing additional books, because I don't think it will take me long to finish this one. Great fun and so pretty!
