I bought this for a lovely couple recently arrived from the South West, processing a bit of cultcha shock as they realized Yankees are a distinct tribe! Funnier than snot in several chapters, so a nice way to ease through some of the frustrations of adapting to the inbreeding of the town that styles itself 'the Hub of the Universe"!1 of 1 people found the following review helpful. Fun and EducationalBy Greg PorterA quick, fun and easy read through a short dictionary of the people, places and things that make Boston, Bostonians and Boston history unique. While it is more trivia than history, it explains the origin of each item. It gives the reader a "local's view" of the \*real\* Boston, rather than the "tourist's view" of the town the Chamber of Commerce wants you to see. The author's unconditional love of Beantown shows through her somtimes humorous, sometimes irreverent, and sometimes critical glance at Boston people, places and things.
