**Nick Wadley, Nicholas Wadley : Man + Doctor (British Literature)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Man + Doctor (British Literature):

"Man + Doctor" is Nicholas Wadley's wordless story of encounters with doctors, from the patient's attempts to avoid the scalpel, to, once surgery becomes inevitable, watching himself learn to cope with days and weeks spent in hospital beds.

About the Author Nick Wadley taught art history at Chelsea School of Art, London, from 1962 until 1985. As an art historian, his published books include *Noa Noa*, *Gauguin's Tahiti* and *Impressionist and Post-Impressionist Drawing*. He has also published books of cartoons and of drawings, and his drawings have accompanied the work of Robert Walser, Tom Whalen, Jasia Reichardt, John Ashbery, Simon Perchik, Lisa Jardine, and others. His own work has been

exhibited in London, Buenos Aires, and Warsaw.
