Awesome cookbook for single guysBy VegMomof2I bought this for my husband, both because I enjoy giving him humorous gifts, and because I actually would love for him to be able to cook something besides eggs. This cookbook is definitely aimed more at single guys (they speak of "landing chicks" and the like) but it's funny and well written :) I'll be buying copies for my brothers!0 of 0 people found the following review helpful. Bought this for my boyfriend, he loves it! ...By KittyBought this for my boyfriend, he loves it! A previous review says that it doesn't give measurements, only suggestions (eg "a pinch") - it actually does give the

measurements in the preamble...it's worth the read, even if you never cook

The recipes in this book encompass the basics, but expand into readily attainable creative cuisine that appeals to more experienced cooks. With a boisterous take on the basics, the two author-buddies entertain with their banter while dispensing truly good cooking advice, and wonderfully funny relationship anecdotes as well. My husband and I laughed until we cried in some places, and have named this the amuse-bouche of our cookbook collection!

Do you know a male between the ages of 18 and 35 that is desperately in need of NOT being single? Man Meets Stove is a comedy cookbook for men who've never cooked anything without a microwave. We wrote the Man Meets Stove cookbook as we had observed that the men-desperately-in-need-of-cooking-help market was vastly under served. The number of college students surviving on dried noodles and corn chips is just appalling. We are here to help. Man Meets Stove will help men cultivate skills, cooking and otherwise, that will assist them in their fledgling attempts to date women. You can thank us later, ladies. The cookbook includes the following tutorials and recipes: - Oils and other lubricants - Bacon, the other spice - Jet Fuel for the Revolution - Drunk Broccoli - Eggcellent Eggs - Grilled Cheese Sandwich Three-Way - Roast Beast - Chicken and other Vegetables - Heart Attack Hollandaise - Spicy Bacon Candy - Wake Me Up Before you Go Go Brownies (Caffeinated Brownies) ....and others. Every recipe comes with its own song dedication. It is an eclectic mix, with a slight emphasis on 80s pop and hair bands. We apologize for sticking slightly with what we know.

About the AuthorJim is a Generation X-er, but his soul, presuming he has one, was born by parts of the British Hegemony, the Industrial Revolution, and the Age of Enlightenment. He learned at an early age that specialization and conformity were for ants, and has lived his life accordingly. Jim likes his metal heavy, his food good, and his clay centered. He has loved women in his life, but none more so than his lovely wife, the Teutonic Goddess. He has built cars, broke them, and built them up again, sometimes with only a can of ether and a roll of binding wire. He can butcher a tenderloin, guide you across Montana on foot, and end the day with a great taco: see the video at [www.manmeetsstove.com/videoz](http://www.manmeetsstove.com/videoz). Jim earned his B.S. in Geology way back in 1991, but, not to worry, he started college at age 5. He has spent the last 20 years cleaning up the land. A lifelong student of Robert A. Heinlein, Gdel, and Otto Heino, Jim mostly uses his powers for good; well, \*usually\* may be a better term. Jim is a man to have at your back in a tussle, but only if you want to win now, and win all the later fights now as well. He likes his problems solved, and laid to rest. Jim makes a fantastic grilled dinner, so most people just count that as a win. \_\_\_ Thomas was born of religious royalty, but not in a manger. His career got off to an auspicious start at the age of 11. Mowing lawns was honest labor, and it paid for the extreme book habit. He did well in high school, better still with the fairer sex, despite devoting not inconsiderable time playing apocalyptic role-playing war games with Jim. He won the ladies hearts by being a nice guy. Revolutionary. His college years involved the pursuit of an engineering degree and a lovely redhead. He graduated with both. His other lifelong loves are chocolate and cheese. He can change a clutch in 20 minutes, and cook a turkey in 45. See [www.manmeetsstove.com/videoz](http://www.manmeetsstove.com/videoz). For the turkey, not the clutch. His iPod has the complete works of J.S. Bach, INXS, and perhaps Cherry Pie. He had a bad influence in his life. This trend continues. His light reading includes books on the number zero. As a bionic man, he is living the future he read. An engineer of great water and greater iron, city building departments tremble at the mention of his name. Thinking positive is his actual career. That engineering thing is just a hobby with benefits. Author. Baker. Cook. Poet. Not necessarily in that order.
