The Mandalas are unique and the designs are a little different from what I usually find. My only concern is that the lines are blurry. This has not been an issue for the students using the book, they have just gone over the lines with markers and are happy to do it. The paper quality seems good, doesn't bleed thru to the back of the pages.0 of 0 people found the following review helpful. Nice designs! "The Mandalas" is a creative adult coloring book designed by Ray Tucker, award winning artist. Explore the relaxing process of coloring with colored pencils. These mandalas are created with a heavier line rather than the usual lighter line. The effect is that of a stained glass window. They are easy to fill in quickly. This is perfect for the person who is limited with patience. It's been shown that coloring by adults can lower ones blood pressure and help to reduce the affects of daily stress.
