D. Moffat : Mandalas for Masochists (Colouring things) (Volume 1) before purchasing it in order to gage whether or not it would be worth my time, and all praised Mandalas for Masochists (Colouring things) (Volume 1):

Being someone who enjoys detailed work, this book nailed it for me. Weirdly enough, I really like the texture of the cover. If you've ordered one, you will know what I mean. 1 of 1 people found the following review helpful. A Fun Quirky Coloring Book By ellen jacobson This is a great coloring book full of quirky mandalas which will keep you so entranced that you'll forget to sleep and eat. If you're looking for a coloring book that's challenging and a bit different from others ones on the market, look no further than Mandalas for Masochists. 0 of 0 people found the following review helpful. Intricate designs like no other By Mrs Hazel Moffat The designs in the book are so creative, intricate and like no other. Definately a fun challenge

Created deep in the Guatemalan jungle for optimal spiritual synchronicity, Mandalas for Masochists is truly a revolutionary spiritual experience. Combining the intuitive art of coloring with unnecessarily detailed designs, D. Moffat has perverted the laws of Man with a one-of-a-kind* holistic, energetic, therapeutic, deviously difficult, integrated coloring therapy. *May not actually be one-of-a-kind.

About the AuthorD. Moffat lived in relative obscurity until he invented the ancient art of Mandalas just twos of months ago. Since then he has toiled tirelessly to bring his gift to the masses. By sharing this sacred art, it is his wish that others may, through him, finally touch the divine.
