size and printing are smaller than original. Hard to read. Dull color scheme . It's a cheapened down version. My original is colorful, engaging and fun. This version is a mystery. What I love is the anecdotal story and history of these creative recipes. The content is good. I'm giving my original copy as the gift and I'll keep this version as a default. Yes, disappointed.0 of 0 people found the following review helpful. Five StarsBy Michelle SGreat book!0 of 0 people found the following review helpful. Well written and fun to read!
