**Bioware : Mass Effect Adult Coloring Book** before purchasing it in order to gage whether or not it would be worth my time, and all praised Mass Effect Adult Coloring Book:

16 of 18 people found the following review helpful. 45 Great Designs based on Mass Effect Trilogy and new Andromeda release – printed one side of the pageBy  
iiiiireader[[VIDEOID:27709dba0b2afdd162e064328122fc2b]]Attached to this review, I will post a silent, full book flip-through video. I will also attach a few sample photos as well.Once again, Bioware has teamed up with Dark Horse to release an outstanding coloring book. This time, the book is based on Mass Effect (the previous one was Dragon Age.) The designs are detailed and fun to color. Some of them contain small and intricate areas to color.The designs include the characters I hoped to see from the game. The illustrations are by a group of artists (Juann Cabal, Ron Chan, Gabriel Guzman, Andres Ponce and Martin Tunica.) While I can see style differences in the designs, I think the illustrations work well together and the coloring book flows well in the story line. Many of the designs are beautiful and are elegantly drawn. The designs are on the right side of the page with the applicable quote on left side of the page.This is what I found while coloring in this book and testing my coloring medium on the paper:45 great illustrations derived from Mass Effect trilogy and Mass Effect Andromeda.Designs printed on one side of the page with a quote on the back of the pagePaper is heavyweight, white, slightly rough and non-perforatedGlue BindingDesigns merge into the binding areaI could get the book to lay fairly flat for coloring by breaking/creasing the spine.Alcohol-based markers bleed through the page. If you use this medium, I suggest using a blotter page to keep ink from seeping through. I use card stock but a couple of pages of paper should work as well. It will bleed through to the

quote on the back of the page, which doesn't bother me, but I want to note it if it is an issue for you. Water-based markers, India ink pens and gel pens do not bleed through the page. Some do leave light, colorful shadows on the back of the page. Colored pencils worked well with this paper. It has good "tooth" and allowed for applying layers of the same color to get rich pigment. I could also layer multiple colors well and I could blend both oil and wax based pencils easily with a pencil style blending stick. 5 of 5 people found the following review helpful. No animations required. By SummerPre-ordered this months ago and excited to finally have it. It's actually pretty thick with lots of pages. Some pictures are detailed others good for a quick color. I'm really impressed with this especially for the price. 8 of 9 people found the following review helpful. Great book. By MattI just received the book today and I am quite pleased. If you are a mass effect fan and a fan of coloring this is an easy buy. The book contains characters from the original trilogy, as well as new additions from the recently released mass effect andromeda. The pages are of decent thickness , but I still would hesitate to use markers of any kind. Overall very pleased and would recommend!

The award-winning Mass Effect series is famous for its memorable characters, thrilling combat, and stunning visuals. Now celebrate that excitement and beauty with Dark Horse's Mass Effect: The Adult Coloring Book! Featuring art inspired by the classic Mass Effect trilogy as well as the upcoming Mass Effect: Andromeda, this gorgeously illustrated volume includes forty-five ultra-detailed black and white images for you to color however you choose. This is a must have for all fans of science fiction adventure! Includes art inspired by the upcoming Mass Effect: Andromeda! The official Mass Effect coloring book! Color your favorite Mass Effect moments directly from the games! Includes forty-five pieces of beautifully detailed black and white artwork! A must-have for any Mass Effect fan!

About the Author BioWare is a Canadian video game developer founded in February 1995 by newly graduated medical doctors Ray Muzyka, Greg Zeschuk, and Augustine Yip. BioWare is currently owned by the American company Electronic Arts.
