**Andrews McMeel Publishing : Medical Bloopers: 2012 Day-to-Day Calendar** before purchasing it in order to gage whether or not it would be worth my time, and all praised Medical Bloopers: 2012 Day-to-Day Calendar:

0 of 0 people found the following review helpful. lame bookBy HimselfI got this book for free, and I still feel ripped off. I'll never get that time backIt's a calendar formatted to be a Kindle book, but poorly formatted. Many of the pages cut off from the next, right in the middle of the page, when all the page is is the cartoon, and the text caption. Compare that to a calendar which should have each day's cartoon or and/or quote on the day's page.I don't know. Maybe you're really into these jokes, and I usually like to read jokes, but these were all weak.0 of 0 people found the following review helpful. Not my cup of tea, franklyBy bkI actually paged through the entire calendar in a half hour sitting, and happened to notice a pattern: it wasn't particularly funny. There were a few speech to text errors that had humorous overtones, but they were also in the "really old joke" category and I'd heard them before. "The patient's genitals were inspected and found to be circus sized." is an example of the most "rollicking" of the snippets. I suggest that before you purchase this item that you download a sample and decide for yourself if it's worth downloading.0 of 0 people found the following review helpful. Five StarsBy RoseCute lol

very nice product. box has some light wear
