By Jackie Hebert
You don't need a huge book for it to be called a "coffee table book".. size actually does NOT matter here. For the small size that this book is, it delivers literal LOL's and happy face cheek aches from smiling and laughing so hard. Very clever phrases that we have sometimes thought of but they are put in such a way that crack you up! Highly recommend not just for home use, but for entertainment while on long trips with friends and family. You'll get to your destination a lot quicker laughing and I'm guessing no one will ask "are we there yet"..

This intentionally self-deprecating book is not only hilarious, it also makes you realize just how ridiculous you're being if you're just having "one of those days" when you're feeling sorry for yourself. Surprisingly, seeing those self-pity thoughts in writing actually helps dissolve them!

Pleasant short reading. Great wisdom within the pages of a small book!

A humorous guide for hopeless pessimists celebrates the futility of life with such phrases as ""I cannot retrieve my

inner child, for it is dead and buried in my backyard"" and ""I am not afraid of failure, in fact, I'm getting used to it.""
