Terrible layout and not worth the price at all! I was so disappointed. I appreciate the collection and should have been laughing, but clearly the only one laughing is the author who simply printed these straight off the internet and bound the pages with a thicker cover. Maybe my standards are too high, but I think this "book" is more like a kid's school project. 0 of 0 people found the following review helpful. and would have loved it if they were in color. By Helen J. Douglas Cute book. All pictures are in black and white, and would have loved it if they were in color. 0 of 0 people found the following review helpful. Totally Worth It! By Zachray Spencer It really made me crack, I had the best laughter out of this book and I must say it was totally worth it. But some memes were too common and they were like not upto the expectations , but overall the book was outstanding piece of comedy.
