I found that I was interested in what she had to say because she gave honest practical advice.. She talks honestly and truthfully about different types of plastic surgery. This is one of the best I've read on each type of procedure - from an aesthetic point of view. She tells you why the procedure works, what you can expect, and what not to do for the lay person. I like that she is a celebrity because she is in a business where all her friends and associates get the procedures so she knows what she's talking about. Too bad she had bad medical service for one of her simpler procedures. This is why you always want a well-regarded certified plastic surgeon, anesthesiologist, and complete medical facilities.

You can learn about different details without having to visit a physician, and wait in the waiting room. Plus, after, reading any of Joan's books, I always have a smile. Just like, when you share a laugh, during a great visit with a friend. Okay, okay, I'll stop rambling now, lol, what can I say? I'm team Joan. I have always admired strong, out spoken, witty, funny, caring women. Kudos to you, Joan. I miss you, but, your legacy will always live on. Thanks for your inspiration in your book, "Bouncing Back", thank you, for always making me laugh and smile. :)

I did not know that this book was going to be a guide of sorts to plastic surgery and other noninvasive cosmetic procedures. Plenty of good information though and she's a good source since she's made it no secret that she's had pretty much every work under the sun. I did learn some good stuff about wrinkle treatments. I guess I was expecting more comedy but this is a great reference book. It could've been called "Everything you ever wanted to know about plastic surgery but were afraid to ask."

Red-carpet fashion laureate, comic icon, and outspoken superstar Joan Rivers is uniquely qualified to talk about plastic surgery—because she's one of the few celebrities unafraid to admit to the world what she's “had done” to keep looking so great. Now, in this no-holds-barred book, she gives women straight-talking advice on better living through looking better. Joan Rivers' abiding life philosophy is simple: in the appearance-centric society of the twenty-first century, beauty is key—especially where men are concerned. Men like pretty women. And so, getting something lifted, tightened, adjusted, or removed is as fundamental as wearing makeup or using hair conditioner; it's become something we do to make ourselves look better. Now, for any woman considering her options, Joan Rivers takes the mystery out of cosmetic surgery with a practical overview, aided and informed by the country's top plastic surgeons, of almost every single cosmetic procedure legally performed in America today. She takes readers step-by-step through these entire processes, from finding the right doctor to the bruising truth about recovery and the facts about cosmetic surgery's very real risks. But don't worry—there's dish, too. Filled with Rivers' personal anecdotes about life under the knife, *Men Are Stupid...And They Like Big Boobs* is also rife with Hollywood gossip about who's done what and how often. Part comic musing, part bitch-fest, and part hands-on advice, this is a bracingly funny, wildly frank, and genuinely passionate argument for a woman's right to do whatever it takes to be beautiful, to feel better about herself, and most of all to be happy -- not only with who she is, but who she wants to be. Throughout the book, Joan Rivers is right there, guiding and encouraging with no apologies, no excuses, and absolutely no shame. Take it from the woman who enjoys having it all—done.

.com A QA with Joan Rivers Q: What kinds of books do you enjoy? A: At my age, anything in large print. Q: Who inspired you to become a writer? A: An agent who told me I was too ugly to be in front of the camera. Q: Is it true when they say that you should “write what you know”? A: Absolutely, which is why my next book is about having thighs that are visible from outer space. Q: Writing is a tough profession. Do you remember the first time you were rejected? A: My wedding night. Q: What is it like having a novel? published at the age of 75? A: I am so old, even the spine of my book has osteoporosis. Q: Computer, typewriter or pen and paper. What tools did you use to write your first book? A: Chisel and stone. Q: Are you one of those writers who work at home in a dirty old bathrobe without showering for days? A: Yes, except for the part about working at home. Q: What's the first step in getting a publisher interested in your book? A: A check for fifty grand made out to “cash”. Q: Is it true that the murder mystery was heavily influenced by fashions seen on the red carpet? A: Absolutely. Even the dust jacket was made by Chanel. Q: What was the most important thing that you learned while writing a book about plastic surgery? A: Always use the spell-check when you're still under anesthesia.

From Publishers Weekly The Rivers brand of comedy, celebrity gossip, fashion commentary and motivational chutzpa so beloved by her fans is on full display in this guide to elective plastic surgery. As a reader, Rivers embodies the Can we talk? accessibility of her standup persona, never missing an opportunity for a colorful pun or punch line. Still, she projects authority when imparting medical advice about cosmetic procedures, particularly the importance of selecting a reputable physician and following protocols for after-care and recovery. Her guide spans wrinkle removals to various aesthetic enhancements to female genitalia. Rivers' candor offends and endears with equal measure, and her irreverent treatment deserves credit for offering guidance from health professionals. A Simon Schuster hardcover. (Jan.)
