**Martha Sacks : Menopaws: The Silent Meow** before purchasing it in order to gage whether or not it would be worth my time, and all praised Menopaws: The Silent Meow:

Then my girlfriend started to go through menopause symptoms which were severely distressing to her, so I ordered a copy. She loved it; it was just what she needed at that time. "Menopaws" helped put things in perspective and helped her not take herself and the symptoms so seriously. But then two weeks later she left me anyway, and I never got a chance to fully read the book. Thanks a lot Menopaws! (Just joking... it had nothing to do with the book, I'm sure).Now, where to look up "girlfriend" on ? :) (okay, okay, guys, I can hear your keyboards clattering already; no links to inflatable sheep or Miley Cyrus posters please!)0 of 0 people found the following review helpful. especially if you like cats. Think someone gave this to meBy Jd\_AzReally cute, especially if you like cats. Think someone gave this to me, so turned around and bought for another kitty lover.1 of 1 people found the following review helpful. Amusing... but not muchBy Cats R UsWish I'd listed to "A Class Act". I was probably expecting too much but this book was a big let-down. It's not particularly funny. And I, too, didn't care for some of the lines passed off as humor. I didn't care for the of drawing style either. It's not a total cat-astrophe but it may be the first book I actually sell.

A full-color book of gentle humor providing inspiration and playful coping strategies for millions of women a bit apprehensive about the change of life. Illustrating this delightful collection of tips are 48 paintings of the spunkiest, cleverest, most inspiring cats ever seen. A perfect gift.

Great gift ideas for those who need a helping hand to see the humor in their midlife passage. . . . This book of whimsical and colorful cartoon depictions of cats enduring menopausal symptoms and coming up with innovative solutions is an old-favorite that is, thankfully, still in print. [The] suggestions are guaranteed to tickle your funny bone. A Friend Indeed: For Women in the Prime of Life newsletter
