HeepI am very picky when it comes to coloring books and don't buy a whole lot, despite being a dedicated colorists, especially when they cost more than \$6 or so. I made an exception with this book because I am familiar with Doreen Virtue and the books she has been publishing for a while. She didn't do the illustrations, she wrote the messages, Norma J. Burnell did them, but they are fantastic. From what I gather by conducting research, Norma is a very accomplished artist.The average book has 31 designs, this one has over 40. (the book has 96 pages in all, but the designs are single sided). I was pleasantly surprised at the paper thickness and quality because books that have more designs are usually cheaping out

on paper. This one did not. The angels are on one side of the page, and the backsides have inspiring messages on them. Pages are perforated for easy removal. If there is one thing that I find a bit difficult is that a lot of the designs fade into the paper. However, I am not deducting points for that. While my personal preference would be for full designs, not fade-outs, that doesn't mean others would not like this. I've used colored pencils, markers and gel pens, and they all work wonderfully with this book. 11 of 11 people found the following review helpful. Five Stars By Gina :) Love them !!! 4 of 4 people found the following review helpful. LOVE IT!!!! By Cheryl eLove it as I did with her fairies one. The angles are beautiful and also the messages are right on!!!! I just wish the bodies had been a bit smaller and finished. Complete with legs and feet, the bottom half is just left off. But, I still love this book and love coloring in it and watching the Angels come to life! You will love this book if you enjoy coloring Angels as I do. Love the way their faces are, where you can color the eyes and lips. So real. Not disappointed here at all

“You have guardian angels with you right now. These angels are pure beings of Divine light who are entirely trustworthy and who want to help you with every area of your life. The word ‘angel’ means ‘messenger of God’. Angels carry messages between the Creator and the created, like Heavenly postal carriers.” - Doreen Virtue This stunning coloring book, with exquisite illustrations from Norma J. Burnell, brings messages of comfort, support and hope from your angels. Coloring in these beautiful images will allow you to connect more deeply with your angels, helping you to open up your subconscious mind through an enjoyable, relaxing and meditative creative activity. Those who regularly contact their angels report great improvements in their lives. They feel happier, more peaceful and confident, and less afraid of the future. The angels are waiting for you to connect with them and they can't wait to give you their love and guidance!
