Tom Molito : Mickey Mantle: Inside and Outside the Lines before purchasing it in order to gage whether or not it would be worth my time, and all praised Mickey Mantle: Inside and Outside the Lines:

1 of 1 people found the following review helpful. If you love baseball, if you like the Yankees By Robert DiYanni If you love baseball, if you like the Yankees, and if you are the least bit interested in Micky Mantle, you need to read this book. Why? Because it's informative, entertaining, and insightful. Mickey Mantle the young man and apprentice player, the Mick as heroic warrior master of the baseball universe, and the mature, aging, ailing, and dying American icon, are all illuminated. Tom Molito has written a hybrid work, part biography of the Mick, part baseball memoir; the

combination is magical and powerfully instructive. I read straight through the book; it's that kind of engaging read--paradoxically, because it is not a straight chronological narrative and because we already know the outcome. What kept me reading, and I imagine what will keep many others turning pages is the vividness of Molito's recollections of not just his meetings with the Mick, but his reconstructions of games he attended, his evocative descriptions of players and games and fields, his sense of humor, and most of all his unabated lifelong passion for America's pastime. Molito is as knowledgeable about baseball as anyone. His love for his idol is contagious. And he knows how to tell a story--to make us feel we are there with him. Read this book. Buy copies for your baseball loving friends. You and they won't be disappointed.

By Paul DeRusso
A complete story of the one and only, Mick. After accurately depicting his great career, the author delves into his post-career life in great detail. This is, to many, the first time you may get to see this side. To me, this was most satisfying.

By Glenn A. Legge
As a native New Yorker growing up in the 50's it was easy to be a Yankees fan and even easier to be a Mickey Mantle fan. I had the good fortune to meet him on a couple of occasions in the 60's. He was gracious and the kind of a guy everyone wanted to be around. A good documentation of much of his life.

Mickey Mantle: Inside and Outside the Lines is different from any other Mickey Mantle book. It was written for baseball lovers and Mantle fans who will live vicariously through it's author Tom Molito. The year 2016 is the 60th Anniversary of Mantle's Triple Crown season, which many baseball experts consider one of the best seasons ever for a ball player. Paradoxically, those who experienced that season are decreasing in numbers. But, Mickey Mantle is more popular than ever. The value of his memorabilia is second to none. He remains respected and admired for the redemptive quality of his life. The book recalls never told before stories: from Park Avenue, to Las Vegas, to Cooperstown; from television shoots to concerts and Mickey's restaurant on Central Park West. Molito collaborated with the highly respected baseball historian Harold "Doc" Friend. The late Mr. Friend wrote for Bleacher Report (CBS) and uncovered previously unknown facts about Mantle's career – such as Mickey hitting the facade in Yankee Stadium 3 times not the reported twice. An entire chapter updates Mantle's career with present day statistical measures and comes to the indisputable conclusion that "Mickey Mantle was even better than we thought!" The book utilizes archival newspaper articles, websites and more than 35 books on Mantle to weave the most complete, unique look at an American Icon.

About the Author
A Yonkers native, Tom Molito lives in Northern Westchester County, New York where he and his wife Kathleen raised their three children. A Marketing Executive for several Fortune 500 companies, Molito was the Founder of Cabin Fever Video (Lonesome Dove, Little Rascals, Free-Bird ... The Movie). He served on the Board of the Country Music Association, and his hobbies include Bass-Fishing and "hangin in coffee shops."
