DisappointedBy Victoria RhodesI was very disappointed in this set. The description says that each page has one of her drawings, and that was not the case. There is one very tiny (dime size) drawing about every 5 pages. I understand these are journals, but the other coloring journal I bought at least had one drawing per page and the lines were intertwined with the drawing. Lesson learned don't buy non reviewed books.9 of 9 people found the following review helpful. Absolutely ADORE these. Perfect little

notebooks. By C. Cole These journals are fantastic. They're sturdy, the perfect size to toss in your briefcase/backpack/purse/etc. The thickness of the paper has a good feel to it, it's not too heavy and not too thin to feel cheap. I love this 3 journal set. I ended up keeping 2 and gifting one to a friend. SEE PIC- There are little doodles on SOME of the pages (maybe once every 8-10 pages, either on the top or bottom) They're cute and don't take up much room. This is a journal- not a coloring book. I absolutely recommend these- whether you keep them for yourself, gift them- (this set would make a perfect gift), or share them, like I did... You really can't go wrong. This is a good value for a quality product.

Millie Marotta's charming and whimsical animal art has won fans worldwide. Now Millie has created a pack of three beautiful journals—two with lined pages, and one unlined—all illustrated with her appealing illustrations. Each page features one of her signature creatures, including a bird perched on the page, a cute ladybug, a frog, and an intricately designed elephant. Use them as a diary, a sketchbook, or to jot down notes!
