I have read it to my classes and to my grandchildren.It is a classic and perfect for dressing up as the main character.Little ones love the suspense and feel they "knew it" all along.Clever illustrations abound.2 of 2 people found the following review helpful. A must have in your family library.By Momof5.0I bought this book because it's a classic from my youth. I remember watching Reading Rainbow when they featured this book. Well it's appeal hasn't

died my kids love it!!! My kids are 18 to 4 and I am frequently asked by the younger ones that can't read it to read it again and again! A must for any family library!3 of 3 people found the following review helpful. She really wanted to get it so my son could enjoy it like she used toBy ShawsMy wife just remembered this book the other day. She used to read it when she was a kid in elementary school. She really wanted to get it so my son could enjoy it like she used to. He loves it too. She was so glad she could get it so easily on .

The kids in Room 207 were misbehaving again. Spitballs stuck to the ceiling. Paper planes whizzing through the air. They were the worst-behaved class in the whole school. So begins this quirky classic, first published in 1977 and still relevant today as a lighthearted reminder to show our appreciation to those we value. The students don't proffer a shred of respect for their good-natured teacher Miss Nelson, but when the witchy substitute Miss Viola Swamp appears on the scene, they start to regret their own wicked ways. James Marshall's scritch, cartoonish full-color ink and wash illustrations are hilarious. A back-to-school perennial!

"Rarely has the golden rule been so effectively interpreted for children."--Booklist, ALA
