I didn't know if my friend would like it. She loved it. The book got to me in time to give it as a Christmas gift and it had some of the funniest Modern Family moments in it. Great

stocking stuffer, which is what I used it for. 0 of 0 people found the following review helpful. Five Stars By Jerzie girl
Awesome!! Our family loves them some Modern Family!!! 5 of 5 people found the following review helpful. My husband loved it!!
By K. Berneti I was hoping they would have published the "Philosophy" book. That would have been IDEAL for Christmas. But, my husband totally enjoyed this book as a Christmas present and finished it within the week. Very easy reading and funny. He was laughing out loud constantly.

Every week, the families of Modern Family have something to learn. Sometimes it's a lesson about parenting. Other times, it's about the relationship between husbands and wives (or husbands and husbands, as the case may be). Or maybe it's about getting along with your adult parents, or your spouse's parents.

About the Author Modern Family has aired on ABC since Fall 2009. Steve Levitan and Christopher Lloyd are the creators and Executive Producers of the show, and they will be main creative force behind this book.
