Just when you've mastered being a mother to your baby, she isn't a baby anymore. The memories of diapers and

bottles seem like a breeze compared to school bullies, parent-teacher conferences, and irate soccer parents. Suddenly the "terrible twos" don't seem so bad. Kids grow up fast, and parents can have a hard time keeping up with the changes—in themselves as well as their children. *Mom's Trapped in the Minivan* is a survival guide for kids' middle years—a how-to that covers tough topics like: • Sex education • Lying • Communication tactics • Self-confidence • Learning styles • Peer pressure Don't struggle through your child's middle years! Learn how to manage the demands on your time, your faith and your sanity, and thrive through this new phase of motherhood with humor and direction.
