Lee Camp : Moment Of Clarity before purchasing it in order to gage whether or not it would be worth my time, and all praised Moment Of Clarity:

154 of 154 people found the following review helpful. SIX Stars -- A National Enema with ChampagneBy Robert David STEELE VivasTen percent of the books I have reviewed here at make it into my six star group. This is such a book. I have been a fan of Lee Camp's outrageously spirited, funny, and profane social commentaries for years, through his videos. This book was given to me as a gift, and I have been laughing all morning with occasional tears of

sadness for society.'s Look Inside the Book provides the Table of Contents, look at that if you have any doubt.HUGE PLUS: Each short chapter has the YouTube URL at the top. also sells two audios for Lee, great for the car, but personally I value the combination of Lee's face and live delivery with his words, for now found only on YouTube.The subtitle says it all: Lee is a stark raving sane man. Others have compared him to Carlin, I would go a step further, Lee is Carlin with class (smile). He's like a giant-sized Irish elf armed with an intelligence flame thrower capable of skewering any lie, any pretense, any crime against humanity -- his book covers most of them.I would certainly like to see a Lee Camp: The Movie but until that comes available, this book is a sane person's salvation. We who are sane are labeled crazy by the 1% and the sheep that listen to the 1%, this book is life-affirming, mind-altering, soul-strengthening righteous good stuff.God Bless Lee, God Bless America, and as Winston Churchill once said, NEVER GIVE UP.Radical idea: buy as many of these books as you can, and either put the books in toilets where the willing might still be saved, or cut the spine off and sprinkle Lee's individual stories around. This book is pixie dust for humanity.Ten books, none funny, that reinforce Lee's sanity parade:Philosophy and the Social Problem: The Annotated EditionIdeas and Integrities: A Spontaneous Autobiographical DisclosureHomeland Earth : A Manifesto for the New Millennium (Advances in Systems Theory, Complexity and the Human Sciences)On God's Side: What Religion Forgets and Politics Hasn't Learned about Serving the Common GoodSurrender to Kindness: One Man's Epic Journey for Love and PeaceReconciliation: Islam, Democracy, and the WestHigh Noon: 20 Global Problems, 20 Years To Solve ThemA More Secure World: Our Shared Responsibility--Report of the Secretary-General's High-level Panel on Threats, Challenges and ChangeStatecraft as SoulcraftSemper Fidelis, from Afghanistan,Robert David STEELE VivasTHE OPEN SOURCE EVERYTHING MANIFESTO: Transparency, Truth, Trust0 of 0 people found the following review helpful. All the Stars ?By ArtLee's style if humor will punch you in the gut then make fun of you for crying like a baby! He mixes truth with snarky humor and uses the most let's say "colorful" metaphores and similes. Very insightful and unapologetic comentary on the current state of reality in the US.3 of 3 people found the following review helpful. Instructions for reading Moment of Clarity: think, laugh, repeat.By Katie KlabusichLee Camp breaks hypocrisy down into digestable, hilarious pieces. This book reads like an instruction manual on dealing with the injustice and inequality that can seem inescapable. He tackles everything from wealth disparity to climate change to apathy to the rampant bad spelling plaguing our culture.The Kindle version includes links to the original videos, making it a chronology of social commentary. There's a chapter-antidote for almost anything threatening to ruin your day. I highly recommend Moment of Clarity for those who appreciate being challenged to laugh and think at the same time. Pass it on to anyone in need of a cathartic release. (Hint: these days, that's everyone you know.)

Comedian Lee Camp finally turns his popular ranting, raving "Moment of Clarity" webseries into a convenient, easy-to-carry paper version. Moment of Clarity includes 90 of Camp's angrily opinionated, hilariously acerbic humor columns. It also includes 20 never-before-seen photos by professional photographer CS Muncy from the front lines of the Occupy protests. Moment Of Clarity somehow takes the palpable anger that exploded across this country in the form of Occupy Wall Street and turns it into something palatable yet toxically funny.
