1 of 1 people found the following review helpful. One of my favorites!By Angela MillerThis book is one of my favorites! I've read it several times, and still find myself laughing out loud each time. When wildlife and suburbia mix, amazing things can happen. But this book proves wild animals can be fascinating just about anywhere.

This is the perfect companion to Wasserman's first book, Pennsylvania Wildlife Tails. The author spent a half-century

of his life in the outdoors, and in that time he collected hundreds of amusing anecdotes about people interacting with animals. However, Wasserman also found that our furred and feathered friends can act in humorous and bewildering ways on their own, without any help from us humans. With the assistance of an outstanding cartoon artist, Wasserman has succeeded in conveying these true stories in ways that will delight all readers from age eight to eighty-eight. So pull up a chair, sit back and get ready for a good case of the giggles. But be prepared, for this book was written not only to make you laugh but to make you think as well.

About the Author William Wasserman has written five books about his life as a wildlife conservation officer. He wrote a weekly outdoor newspaper column for 15 years, and has written numerous articles for Pennsylvania Game News, Fur-Fish-Game, Black Belt, International Game Warden, The Alberta Game Warden and other nationally published magazines. He lives in Greenville, South Carolina with his wife Maryann.
