Rudi Kirschner Md : Mostly Medical Vignettes before purchasing it in order to gauge whether or not it would be worth my time, and all praised Mostly Medical Vignettes:

Mostly these vignettes are tongue-in-cheek and are obviously intended for relaxation and hopefully for light-hearted amusement. Occasionally a vignette is thrown in for food-for-thought and even once or twice a call-to-action. Above all let us not lose our sense of humor and allow relaxation to act as a refresher for our daily task. The physicians will find anecdotes with which they can identify, the non-physicians will appreciate the often ludicrous incongruities and all of the readers hopefully find relaxing enjoyment.
